EYEWEAR, THE BARBOUR WAY
BARBOUR SUN SS26 – COLLECTION LAUNCH

Rooted in tradition, reimagined for today - Barbour eyewear unites timeless design with purposeful detail. From handcrafted acetate frames with tartan core wires to refined metal aviators, our eyewear elevates your wardrobe with sophisticated, all-occasion style.
Each frame is thoughtfully crafted, echoing Barbour's signature hallmarks - subtle branding, functional comfort, and a design language drawn from our heritage. The result is eyewear with enduring style and authenticity.

The Iconic model: BAS-3104
Our standout hero model, BAS-3104, showcases Barbour's attention to both form and function. Featuring a combination metal and acetate front, it includes extendable temples for a tailored fit, and reeded detailing that adds a tactile touch. Debossed Barbour branding lends a subtle nod to our craftsmanship.

Details that Define
Inspired by our outerwear legacy, details include quilted and tartan-patterned core wires, signature metal trims, and tip plaques referencing the classic Barbour zip pull. These touches run across the collection, reinforcing our brand identity with quiet assurance.

Tartan, Tailored
Barbour's house tartans are more than decoration - they're a symbol of heritage. Models BAS-3091-104 and BAS-3094-104 showcase our full Classic Tartan temple designs.

Inspired by Nature
Our palette takes its cues from nature - from earthy greens and stony greys to mineral crystals, and the warm glow of golden hour across the North-East countryside.
BAS-3085-112, with its Golden Ochre tortoiseshell, perfectly captures this moment.

Responsibly Made
In line with our respect for nature, frames feature Acetate Renew - a high-quality, bio-based and recycled material offering a lighter footprint without compromise.

Photochromic Lenses
Select models include photochromic lenses, adjusting dynamically from category 1 to 3 in changing light. See line list for details.

From wax jackets to eyewear, Barbour remains true to its founding values: quality, durability, attention to detail, and purpose-built design. This is eyewear, made the Barbour way.

18 models / 56 skus
11 mens / 7 womens

BRAND STORY

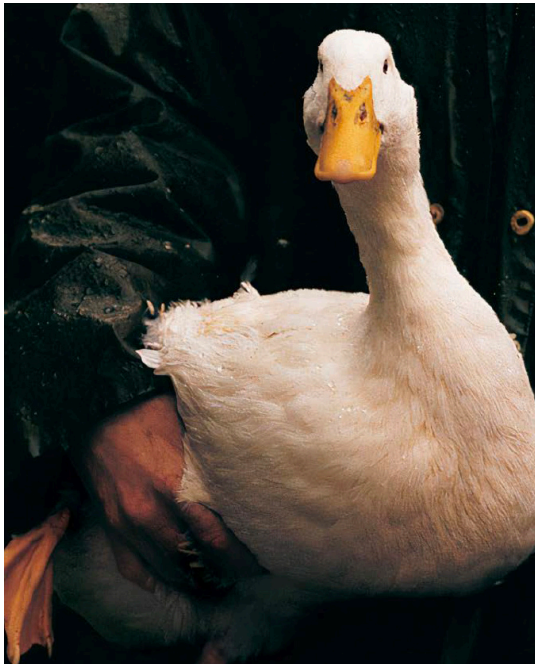

The Barbour story began in 1894 in the Market Place in South Shields. Today the 5th generation family owned business remains in the North East, with Barbour's headquarters located in Simonside, South Shields.

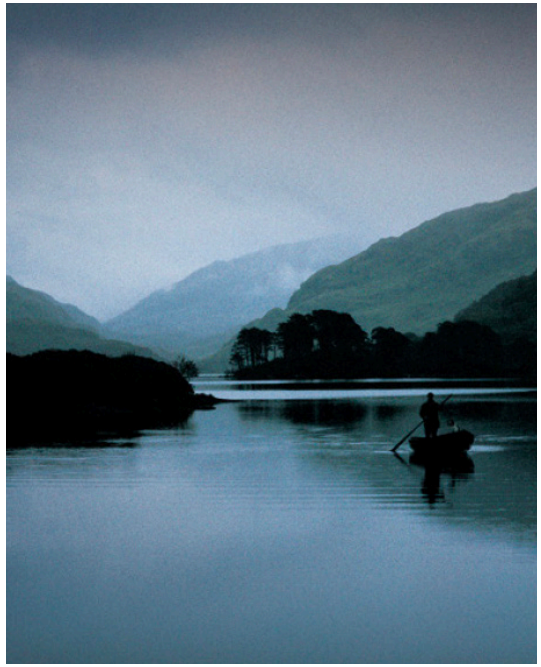

Barbour remains true to its core values as a family business which brings the unique values of the British Countryside and the qualities of wit, grit and glamour to its beautifully functional clothing.

- **130 year anniversary in 2024**
